

Your Year-End Gift Will Brighten Our Lobby & Screens

Help make the Two Renovation Projects a reality.

The Ambler reopened 22 years ago and is starting to show some wear. There are a number of projects and upgrades needed to keep the theater running, looking its best, and serving the community. Your End of Year Gift will support two projects: 1) Lobby Renovations and 2) Vital Improvements in the Projection Booth.

Project 1: Lobby Repairs (\$150,000)

It is time to touch up the theater's promenade and lobby. Since we reopened as a nonprofit in 2003, our rugs have seen over 2 million patrons! And they are starting to show it. Not only will we replace the rugs, but we will also repair the water damage by the Ladies Room, repaint, and provide better lighting and sound mitigation to the lobbies - keeping the classic look of the theater, but making it brighter, more welcoming, and less noisy. Thanks to generous donor support, we are a third of the way!

\$60,000 already raised

\$90,000 to go!

Project 2: Projection Booth Equipment (\$123,500)

This is the first phase of projection upgrades. We need to replace aging equipment to keep showing you the best new and classic films. The booth is more than just projectors (we will raise funds to replace those next year) - this year we need to replace the digital servers, sound processors, A/V interface, and lighting dimmers. Thanks to generous donor support, we are 25% away!

\$90,000 already raised

\$33,500 to go!

THE GOAL:

\$123,500

to be raised by
December 31

Make a gift to ensure the future of the Ambler Theater

Dear Friend of the Ambler,

The nonprofit Ambler Theater is a centerpiece of Ambler's thriving downtown. The theater provides a place for everyone to come together to be entertained, inspired, and transported back in time.

These two projects – refreshing our lobby and upgrading our projection booth – are vital to keeping the Ambler Theater vibrant and an active hub within the community. Your support retains our classic cinema charm along with modern technology that allows for the best possible movie experience.

Please make a gift to the Ambler so that it can continue to bring great movies and events to the community.

Sincerely,

Christopher R. Collier
Executive Director

Ken Roos
President, Board of Directors

Looking Ahead

2026 Project: New Projectors (\$250,000)

In 2013, theaters nationwide made the mandatory switch to digital projection. The 2K projectors, which typically have a lifespan of about ten years, are now twelve years old. To ensure we can continue presenting the latest releases and newly restored classics in the best possible quality, it's critical that we replace our aging equipment. **This year we are replacing the most vital equipment – but we also need to look ahead to installing new projectors in the very near future.**

Your gift today also ensures:

Great Films

Guest Speakers

Special Events

Community

..... Great movies since 1928. Nonprofit since 2003.
